## PENNDOT RELATED ISSUES

PennDOT has requested a few changes to the DL38 (including AOPC 638SI) forms as detailed below.

- ✍ Checkbox indicators have been added for Commercial Drivers License (CDL), Hazardous Material, and Commercial Vehicle.
- ✍ The "Model" field has been renamed to "Vehicle Type." This field will continue to display the data entered in the Vehicle Type field on the Traffic Citation Case Entry screen.
- ✍ For clarification, "Year" has been renamed to "Reg. Year."

DRIVERS LICENSE NUMBER  CDL STATE DATE OF BIRTH  
LAST NAME FIRST NAME MI SEX  
STREET ADDRESS  
CITY STATE ZIP CODE  
REGISTRATION NO. STATE REG. YEAR MAKE VEHICLE TYPE  
OFFENSE OCCURRED WHILE DRIVING/TRANSPORTING:  
→  HAZARDOUS MATERIAL  COMMERCIAL VEHICLE

- ✍ The Vehicle Type F4 list on the Traffic Citation Case Entry screen has a new code, SP16 (Sixteen Passenger Vehicle). When applicable, police officers will write SP16 as the vehicle type on the traffic citation form. PennDOT has informed AOPC that they are required to track offenses involving 16+ passenger vehicles, so the code has been added to the MDJS and PennDOT will notify officers of this new code.

The Notice of License Suspension form (AOPC 650) is no longer required, and therefore, it has been removed from the Non-Traffic Print menu.

## PRINTERS

When a Magisterial District Court has been approved for an additional printer or when an existing printer cannot be repaired, the printer that will be installed will be a Lexmark T640 rather than the current Lexmark T630. Please note, the T630 and T640 require different toner cartridges. The recommended Lexmark toner cartridge part number is 64015HA for the Lexmark T640.
