SUMMARY OF COLLECTIONS REPORT

Page 2 of the Summary of Collections Report (AOPC 728) has been modified to provide more detailed information for any miscellaneous fines or costs that display on Line 12 of the first page of the report. As you are aware, the second page of the Summary of Collections Report generates when Line 12 (Miscellaneous Fines and Costs) on Page 1 contains an amount that is comprised of more than one fine type or cost code.

The enhanced second page will print more specifics under each fine type or cost code including the docket number, receipt number, receipt date, defendant name, citation or complaint number, lead offense, offense description, pay code and total dollar amount. The dockets listed under each fine or cost code will first sort by offense, then by docket number. Also, the second page will now print when any amount displays on Line 12 regardless if the total amount represents only one fine type or cost code.

The Department of Revenue will receive this same detailed information in an electronic file.
