Explanatory Comment

Act No. 127 of 2002 amended the Judicial Code by adding new Section 5101.1 providing for venue in medical professional liability actions. Section 5101.1(b) provides

(b) General rule. – Notwithstanding any other provision to the contrary, a medical professional liability action may be brought against a health care provider for a medical professional liability claim only in the county in which the cause of action arose.

This provision has been incorporated into Rule of Civil Procedure 1006 governing venue as new subdivision (a.1). The new subdivision uses the terminology of the legislation. “Medical professional liability action,” “health care provider” and “medical professional liability claim” are terms defined by Section 5101.1(c) of the Code.

Joint and Several Liability

Under new subdivision (c)(2) of Rule 1006, an action to enforce a joint and several liability against two or more health care providers may be brought in any county in which venue may be laid against at least one of the health care providers under subdivision (a.1). Therefore, an action to enforce a joint and several liability against Health Care Provider A that provided treatment in County 1 and against Health Care Provider B that provided treatment in County 2 may be brought in either County 1 or County 2.

However, subdivision (c)(2) does not allow an action to enforce a joint and several liability to be brought against a health care provider in a county in which venue may be laid against a defendant that is not a health care provider. Therefore, an action to enforce a joint and several liability against Health Care Provider A that provided treatment in County 1 and against a product manufacturer that does business in County 2 may be brought only in County 1.

Multiple Causes of Action

Subdivision (f) of Rule 1006 provides that where more than one cause of action is asserted against the same defendant pursuant to Rule 1020(a), venue as to one cause of action constitutes venue as to all causes of action. In an action in which there are asserted multiple causes of action but only one is a claim for medical professional liability, the application of this provision could frustrate Section 5101.1 and result in an action being brought in a county other than the county in which the cause of action for medical professional liability arose. New subdivision (f)(2) limits venue in such cases to the county required by new subdivision (a.1), e.g., the county in which the cause of action for medical professional liability arose.

The new venue provision for a medical professional liability claim is to be made applicable not only to individual defendants (Rule 1006(a.1)) but also to partnerships (Rule 2130(a)), unincorporated associations (Rule 2156(a)) and corporations and similar entities (Rule 2179(a)).
