UNDISBURSED FUNDS REPORT

Several fixes and improvements, based on your comments, have been made to the Undisbursed Funds Report.

- ✍ The summary trial date now prints for private summary cases when a future SUMT is scheduled.
- ✍ If a case has an active warrant, an * indicator displays to the right of the docket number.
- ✍ When a case is missing money, the "Money Missing" label has been changed to "Disbursement Made - Payment Voided, Transferred or Moved" on the last page of the report. This occurs if server fees or restitution has been paid out and the supporting payment is voided, unapplied, or moved.
- ✍ The "Information Only" box located at the bottom of the Undisbursed Funds Report summary page has been removed.
- ✍ Fixes have been applied to processes that would cause the report to be "out-of-balance." These include how the MDJS processes, calculates, and displays appeal refund amounts and balance forward records.
