## **CASE PROCESSING SCREEN SEQUENCE CHANGE**

The screen sequence for cases which prompt you to enter payment information during the docketing process have been changed. Now the Miscellaneous Payment Entry screen will display as the last screen in the docketing process for the following case types.

- ? Civil
- ? Landlord Tenant
- ? Marriage
- ? Notary/Photocopying
- ? Unidentified Remittance
- ? Out of District Execution

For example, when you docket a civil case, the ordering of the screens is now Civil Case Entry, Interested Party (Remitter), Interested Party (Defendant), Interested Party (PLTF), and Miscellaneous Payment Entry.

This change is necessary to improve system performance and to correct issues related to incomplete data and docket numbers when a case did not docket completely or successfully.
