## Magisterial District Reestablishment 2012

County Name: York

Judicial District #: 19

### Existing and Proposed Magisterial Districts

**Magisterial District #: 19-1-01**

**Proposed Action: Reestablish**

|   |       |   |        |
|---|-------|---|--------|
| Average Annual Caseload:  | 8,721 | Average Annual Workload:  | 70,850 |
| % Difference in Caseload<br>(magisterial district/judicial district): | 50.00 | % Difference in Workload<br>(magisterial district/judicial district):   | 45.00  |
| % Difference in Caseload<br>(magisterial district/class of county):   | 60.00 | <i>Workload outside of a +/- 15% range requires realignment or support to maintain current configuration.</i> |        |

This judicial district has an average caseload and workload that is 23% and 40% greater, respectively, than the state average. District Court 19-3-02 was eliminated because of its disproportionate caseload and workload and its municipalities became 19-3-11. 19-3-11 also received municipalities from 19-2-01 and 19-2-04. Realignment and reestablishment of the remaining courts followed this elimination and preliminary realignment. There is not enough data to determine, which, if any districts, should be realigned, although anecdotal and preliminary analysis suggest workload that is balanced within the judicial district.

This judicial district has an average caseload and workload that is 23% and 40% greater, respectively, than the state average. District Court 19-3-02 was eliminated because of its disproportionate caseload and workload and its municipalities became 19-3-11. 19-3-11 also received municipalities from 19-2-01 and 19-2-04. Realignment and reestablishment of the remaining courts followed this elimination and preliminary realignment. There is not enough data to determine, which, if any districts, should be realigned, although anecdotal and preliminary analysis suggest workload that is balanced within the judicial district.

#### Notes on Analysis:

**CASELOAD:** The statistics provided are used to compare the average annual caseload of each magisterial district to the class of county average as one measure to assess whether any changes should be proposed. Reported values are provided by the judicial district; the comparison values are provided by the MDJS.

**WORKLOAD:** Where the average annual workload of a magisterial district is greater/less than 15% of the judicial district's workload average, the judicial district should realign - OR - explain why this difference does not impact workload equity within the judicial district. A value that is green indicates it is within range; red requires justification if realignment or elimination are not proposed.

Re: Redistricting of Magisterial District Courts  
of the 19<sup>th</sup> Judicial District

Ms. Kehner:

Enclosed you will find the necessary paperwork for the redistricting plan for the District Courts of York County. As you may be aware, earlier this year, we made a submission to the Supreme Court which was approved by Order dated April 15, 2011. After applying all the weighted averages and matrices forwarded by your office, we concluded that the internal research done for the Order mirrored the conclusions contained herein.

Technically then, the current submission represents the formal justification for what the Supreme Court approved in April which takes effect January 2, 2012. If you have any further questions, comments or requests, as always, feel free to contact this office.

Sincerely,

J. Robert Chuk  
District Court Administrator

The following summary is to provide explanation for Question II.E.i. and III.C.i. of the AOPC Magisterial District Reestablishment Worksheet for ALL Magisterial District Courts in Judicial District 19.

Judicial District 19, York County as a whole has a 23% higher Caseload Average and a 40% higher Workload Average than the State. We are ranked 9<sup>th</sup> in Average Caseload in the State (including Allegheny and after 2 counties figures were revised due to eliminations) and 6<sup>th</sup> in the State in Average Workload (again including Allegheny, and after recalculation of eliminated courts in 2 counties.) According to the 2010 U.S. Census, York County's population growth was 8<sup>th</sup> among the State.

With that, District Court 19-3-02 was eliminated in its current political venue due to a severely disproportionate caseload/workload value and moved to another venue to be re-established as District Court 19-3-11 to accommodate a severe overage in District Court 19-2-01 and District Court 19-2-04. The following Courts were then realigned. The political boundary for District Court 19-2-01 was reduced to Springettsbury Township. District Court 19-2-04 was reduced to Manchester Township. The political boundary was increased for District Court 19-3-01 to include Chanceford Township and Felton Borough while District Court 19-3-03 was adjusted to include Lower Chanceford and Peach Bottom Townships along with Delta Borough. District Court 19-3-06 added Jackson and Paradise Townships along with Spring Grove Borough to increase a substandard caseload while providing relief for District Court 19-3-07 whose caseload was also well above the State average. District Court 19-3-07 was then re-established with the addition of Conewago Township to decrease the overage in District Court 19-3-09. District Court 19-3-11 will encompass East Manchester and Hellam Townships along with the Boroughs of Hallam, Manchester, Mount Wolf and Wrightsville. The remaining District Courts 19-1-01, 19-1-02, 19-1-03, 19-1-04, 19-1-05, 19-2-02, 19-2-03- 19-2-05, 19-3-04, 19-3-05 and 19-3-10 were re-established as existing. Finally to further reduce the excessive overages in Courts along the busy sections of the I-83 corridor, a local Court Order established by the President Judge was issued to assign ALL Pennsylvania State Police dockets to three (3) specific District Courts 19-3-03, 19-3-04 and 19-3-10 to increase their respective caseload while further lowering the caseload in Courts 19-2-01, 19-2-02, 19-2-04 and 19-3-09.

In view of the increase in Population, the current/projected Caseload and corresponding Workload Averages, our reestablishment/realignment plan will NOT provide relief for this Judicial District whose averages will still be significantly higher than the States as indicated above. While the statistics provided indicate the need for an additional Court to bring us in compliance with the recommended average caseload and subsequent workload, we understand the financial circumstances that face the State and the Supreme Court. Although there will continue to be some inequities, we acknowledge the plan the Supreme Court approved for our reestablishment/realignment is the most comprehensive design to streamline the caseload and paralleling workload to provide for a balanced approach for the next decade.
