Commonwealth Court May 11–15, 2020 Oral Argument Session to Be Conducted Remotely Using Advanced Video Communication Technology

Oral arguments scheduled before the Commonwealth Court of Pennsylvania for the week of May 11-15, 2020, will be conducted remotely by advanced video communication technology. Accordingly, counsel will not appear in person for oral argument.

The Court will provide counsel that are scheduled to argue with detailed information, protocols, and technical assistance for the conduct of the remote arguments. Each party shall designate one attorney to appear and argue on behalf of the party. In cases involving more than one party on a side, counsel will be required to advise the Court in advance how they will divide their argument time.

The Court will provide a platform to livestream the oral arguments for public and media access. Information regarding public and media access will be posted on the Court's website in advance of the argument session.

Counsel, the public and the media are advised to monitor individual case dockets and the Court's website for further information and details.
