**Cumberland County  
Magisterial District Reestablishment  
Report  
2022-2031**

Issued March 28, 2012

**Introduction**

In October 2021, Cumberland County was notified by the Administrative Office of Pennsylvania Courts (AOPC) of its requirement under 42 Pa.C.S.A. § 1503 to participate in the reestablishment of magisterial districts. This event occurs every ten years and is directly related to the Federal decennial census. Cumberland County has received from the AOPC a set of guidelines, case filing statistics and work load statistics for Criminal, Non-Traffic, Private Complaint, Traffic, Civil, Landlord/Tenant and Miscellaneous filings in the ten Magisterial District Courts in Cumberland County. The guidelines indicate that Cumberland County shall submit recommendations to the AOPC regarding the reestablishment of its District Courts no later than February 28, 2022.

The following report, along with required worksheets provided by the AOPC, will meet the requirements of the AOPC. The conclusion is that there are no recommendations to eliminate an existing district court and that Reestablishment should occur for all Magisterial District Courts. (Summary attached).

**Report**

Effective July 1, 2022

09-2-02 - All criminal and traffic cases generated by the Pennsylvania state police on Interstate 81 and the PA Turnpike that run through 09-2-02 shall be filed in 09-3-02. Based on workload calculations from 2019, this should bring this district within the 15% threshold.

09-2-01 - All criminal and traffic cases generated by the Pennsylvania state police on Interstate 81 and PA Turnpike that run through 09-2-01 shall be filed in 09-3-02. Based on workload calculations from 2019, this should keep this district within the 15% threshold, while also putting 09-3-02 within the 15% threshold.

09-3-02 - All criminal and traffic cases generated by the Pennsylvania state police on Interstate 81, Route 581, and PA Turnpike that runs through 09-2-02 and 09-2-01 shall be filed in 09-3-02. Based on workload calculations from 2019, this should bring this district within the 15% threshold.

09-1-03 - All criminal and traffic cases generated by the Pennsylvania state police on Interstate 81, Route 581, and PA Turnpike that runs through 09-3-04 shall be filed in 09-1-03. Based on workload calculations from 2019, this should bring this district within the 15% threshold.

09-3-04 - All criminal and traffic cases generated by the Pennsylvania state police on Interstate 81, Route 581, and PA Turnpike that runs through 09-3-04 shall be filed in 09-1-03. Based on workload calculations from 2019, this should bring this district within the 15% threshold.

### **Guidelines**

For the current reestablishment project, the AOPC has pre-determined the standards by which counties are to review its data and make its recommendations. These standards are all outlined in the document provided by the AOPC, Magisterial District Reestablishment Guidelines.

### **Public Comment**

Guidelines from the AOPC indicate that the draft of the Magisterial District Reestablishment Report by provided to the public for a period of 30 days and that comments from the public are to be included in the final report. A copy of this report will be posted on the Cumberland County website (<http://www.ccpa.net>) on the main page under "News & Announcements." Copies of this report will also be forwarded to local media outlets.

Dear Ms. Calvanelli,

I saw in the newspaper about the reestablishment of the MDJ districts. I see they are to remain exactly as they are now. I would like to make a comment for the record.

It seems to me after reviewing the 22 page document that two districts have a much greater workload than most. Justification for this and to say it will get into the recommended 15% threshold is that traffic cases will be handled by a different court lessening their workload.

I think that logic is faulty as their caseload number listed to determine their caseload work already includes the implementation of that plan but remains higher than the rest.

Since this has already been in place as a solution to justify the discrepancies in greater than 15% variance, it seems to me actual numbers should be given to show this solution does indeed balance the workload and not be speculative.

You know whether your solution to bring them back within the 15% threshold works and your explanation on the document should give concrete numbers to substantiate this claim. If you didn't have the data, would be one thing. You should have the data and for disclosure that should be listed.

The information on the paperwork should be helpful to the Public and the reviewers. Providing such concrete data would be helpful to me.

Thank you for posting my comments in the public record.
