All filings must comply with the requirements of Pa. R.A.P. 124. Among other requirements, original paper filings must be unbound (but securely binder clipped); copies must be firmly bound. Please provide an additional copy and a self-addressed postage paid envelope if you wish to have a copy returned.

* All paper documents filed with the Court are scanned, and an electronic image of the document is maintained in the Court's Electronic Records Management System (ERMS). To facilitate scanning, Pa. R.A.P. 124 requires that the paper original must be unbound. In addition to the required copies, parties filing paper documents are encouraged (but not required) to file an electronic copy of every paper document in PDF format on a disc, flash drive, or similar electronic medium in accordance with the following system requirements:

- The filing should be accompanied by an averment that the material on the electronic medium is an accurate and complete representation of the paper original.
- Documents created in PDF format should be saved in standard quality.
- Uploading documents directly from the electronic medium into ERMS provides the cleanest, sharpest, most accurate representation of the original paper document. Therefore, when possible, the electronic file should be made by converting the word processing document directly to PDF. If a paper document must be scanned, it should be scanned using 300 dpi for black and white and 200 dpi for color.
- Separate paper documents must be provided as separate electronic documents. For example, a separate brief and reproduced record should be separate electronic documents on the electronic medium.
- Name electronic documents clearly, such as Brief for Appellant. Use only letters, numbers, dashes, and spaces in naming.
- Mark the electronic medium with the Commonwealth Court docket number, name of party, and name of filing(s). If using a disc, write on the disc with a permanent marker or print directly onto the disc; do **not** use mailing labels or other adhesive labels on the disc.

† See Pa. R.A.P. 125, which authorizes electronic filing through the PACFile electronic filing system. Within seven days of submission of a document electronically filed via PACFile, the filer must submit to the court a bound paper version of the electronic filing with as many bound copies as the court requires. To ensure that the paper version submitted is the same as the electronically filed document, the paper version should be a printed copy of the electronically file-stamped document that was returned to the filer after acceptance by PACFile.
