ORDER

PER CURIAM

AND NOW, this 4th day of November, 2026, the Petition for Allowance of Appeal is **GRANTED**. The issues, rephrased for clarity, are:

(1) Whether LLC members who comply with the operating agreement's "no cause" expulsion clause can nevertheless violate a fiduciary duty to the expelled member in expelling said member?

(2) Whether LLC members owe fiduciary duties to an expelled member, after that member's expulsion, such that the remaining members must act in the best interest of both the LLC and the former member as a transferee?
