ORDER

PER CURIAM

AND NOW, this 7th day of September, 2023, the Petition for Allowance of Appeal is **GRANTED**. The issues, as stated by Petitioner, are:

- (1) Should the hills and ridges doctrine be applied in situations where the injured party is a business invitee?

- (2) Should the hills and ridges doctrine be applied in situations like this one where the injured party is a business invitee and the defendant is a winter-weather business, like a ski resort, that derives its income from the public partaking in activities which depend on the presence of snow/ice?
